- a) How the company prevents the use of anonymity to prevent the funnel money to extremist groups
- b) what measures are in place to prevent foreign funds from being used to support these groups, and to the subgroups that have expressed an intent to put in place their own undemocratic government, and
- c) c) what measures and assurances are in place to ensure the \$1M already released is not going towards promoting any of the forms of the aforementioned unacceptable views and activities.
